# Product News

Here at Visibly Clear Services, we are committed to staying informed about industry developments. One significant focus always in discussion is on reducing our carbon footprint and contributing positively to the environment.

We prioritise the use of eco-friendly products in our cleaning services for both commercial and domestic properties.

To ensure eco-friendliness, we source our products from UK-based suppliers who utilise mixing tanks. This allows for the production of cleaning chemical products in various quantities, optimising storage and reducing waste. Our suppliers have also been certified by Planet Mark for the past two years, demonstrating their dedication to environmental sustainability and work closely with Planet Mark to further minimise carbon footprint.

In addition to selecting environmentally conscious products, we are mindful of the impact of plastic usage. As a business, we recognise the importance of reducing plastic waste. Therefore, the containers we use are fully recyclable, with a significant portion containing 40% UK recycled polymer. This commitment to sustainability extends throughout our operations, reflecting our dedication to both quality service and environmental responsibility. It is their policy to maintain a quality system designed to meet the requirements of ISO 9001:2015 & ISO 14001:2015 (or any other standard in

line with Annex SL Structure).

## Our most frequently used products!

We pride ourselves on providing the most daily-used items, carefully curated to not only meet but exceed expectations. Each product, eco-friendly and consciously chosen, ensures a clean, professional finish every time. With us, quality is not just a promise, it's a standard we uphold with pride.

## Lets get to know Ann!

Anne has been an invaluable member of the Visibly Clear Services team for many years, bringing dedication, positivity, and a wealth of experience to her role. Let's take a moment to get to know Anne a little better.

Originally hailing from Dublin, Ireland, Anne's proudest accomplishment is her loving family, including her daughter and son. When she's not hard at work, Anne enjoys indulging in her passions for walking and reading. Her favorite travel destination is Italy, particularly during the enchanting season of Spring, when the weather is just right. Anne has a soft spot for the timeless melodies of Simon & Garfunkel, and if she were ever stranded on a desert island, she'd hope to have red wine, a good book, and Italian crackers for company.

Anne's love for life extends to her simple pleasures, such as indulging in a comforting Sunday roast and catching

up on the latest episodes of Gogglebox. In her professional career, Anne firmly believes that keeping staff content is key to building a successful team. Despite the challenges she faces, particularly with the task of lugging the Hoover up and down stairs, Anne's positive attitude shines through, and she consistently gives her all to every job she undertakes.

One of Anne's top cleaning tips is to use spray glass cleaner on gloss kitchen units, followed by a clean cloth polish. This method ensures that the units are left sparkling clean and smear-free, reflecting Anne's commitment to excellence in her work.

We're incredibly fortunate to have Anne as part of our team at Visibly Clear Services, and we look forward to many more years of her invaluable contributions.
